The Mackay MULTICUSHION® range of vibration isolation mounts now give you the flexibility to cover a broad range of mounting and vibration control requirements.

The MULTICUSHION® system is a new approach in isolator selection. The large range of sizes and hardnesses (Durometer) available combined with interchangeable metric and imperial stud options allows selection of the most appropriate mount for an application.

The range of mounts available are designed to isolate vibration from the most delicate instruments through to automotive and heavy Industrial equipment
