Foreword (GB)

Group 04, number register of new parts, containing all part numbers entered in the catalogue since the previous edition.

New parts in Volvo Parts Divisions product range are indicated by an asterisk in the NR column.

In the first edition of the catalogue, group 04 contains new parts only.

The parts are arranged in the catalogue in groups, and within each group they are arranged in order of page and position number.

Standard parts, e.g. screws, nuts etc. (function group 1100-1159) appear first, and are taken up only once, without group and page references.

(For further information, see catalogue instructions, Group 05)

Förord (S)

Grupp 04, nummerregister nya artiklar, innehåller alla artikelnummer som är införda i katalogen sedan föregående utgåva.

This diagram illustrates the exploded view of a mechanical assembly, likely a valve or actuator. The components are numbered as follows:

- 1**: Main cylindrical body or housing.
- 2**: A ring or collar that fits around the main body.
- 3**: A small cylindrical component, possibly a pin or a small bush.
- 4**: A small cylindrical component, possibly a pin or a small bush.
- 5**: A coiled spring.
- 6**: A small cylindrical component, possibly a pin or a small bush.
- 7**: A bracket or support arm.
- 8**: A screw or bolt.
- 9**: A washer or spacer.
- 10**: A long rod or shaft.
- 11**: A long rod or shaft.
- 12**: A small cylindrical component, possibly a pin or a small bush.
- 13**: A small cylindrical component, possibly a pin or a small bush.
- 14**: A small cylindrical component, possibly a pin or a small bush.
- 15**: A small cylindrical component, possibly a pin or a small bush.
- 16**: A bracket or support arm.
- 17**: A screw or bolt.
- 18**: A long rod or shaft.

The diagram shows the relative positions and assembly sequence of these parts. A dashed line indicates the path of assembly for the rod (10) through the main body (1) and the bracket (7). Another dashed line shows the path for the rod (11) through the main body (1) and the bracket (16). The spring (5) is shown in its compressed state, ready to be installed around the rod (11).

19

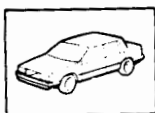

This exploded view diagram illustrates the assembly of a mechanical component, likely a door latch or lock mechanism. The parts are numbered as follows:

- 19**: A small circular cap or plug.
- 20**: A rectangular metal plate with a slot and a hole.
- 21**: A complex metal bracket or housing with multiple mounting points.
- 22**: A circular metal flange or disc.
- 23**: A small cylindrical pin or spacer.
- 24**: A coiled metal spring.
- 25**: Another coiled metal spring, slightly different in size or orientation.
- 26**: A circular metal disc or washer.
- 27**: A circular metal disc or washer, similar to 26.
- 28**: A small screw or fastener.
- 29**: A small screw or fastener.
- 30**: A circular metal washer or spacer.
- 31**: A rectangular metal plate, similar to 20 but with different dimensions.
- 32**: A small screw or fastener.
- 33**: A long, thin metal rod or pin.
- 34**: A small metal nut or washer.
- 35**: A small metal nut or washer.
- 36**: A small metal nut or washer.
- 37**: A small metal nut or washer.
- 38**: A small metal nut or washer.
- 39**: A small metal nut or washer.
- 40**: A long, thin metal rod or pin, similar to 33.

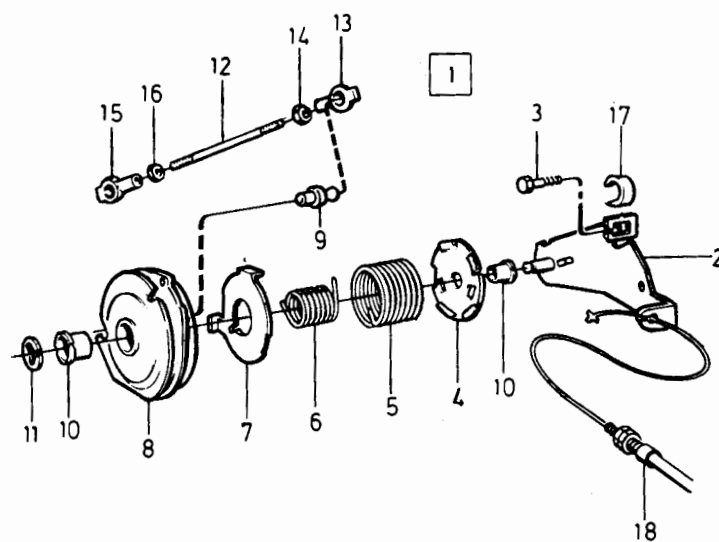

The diagram shows the relative positions and assembly sequence of these components. For example, the rod (33) passes through the plate (20) and the bracket (21). The spring (24) is positioned between the disc (26) and the bracket (21). The cap (19) is shown being inserted into the top of the assembly.
